

The Houston Dream Center is a non-profit outreach dedicated to helping urban and inner-city communities.

Our ministry provides hope by meeting both tangible and spiritual needs.

We provide food, clothing, shelter, life rehabilitation, education and job training, Biblical training and much more. We are burdened to reach thousands of hurting and needy children, families and adults across all races and cultures.

The Dream Center strives to help solve moral decay, crime, drugs, gangs, homelessness and poverty epidemics that exist in our nation's inner-cities. The vision of the Dream Center is to see thousands of hurting people come to know a new life in JESUS CHRIST.

The Dream Center works to partner with people all around the world to reach the lost at any cost and help meet the communities' most basic and greatest needs. The Dream Center's outreaches provide food, clothing, housing, education, and job training to thousands of hurting and needy children and adults of different races and cultures. The Dream Center networks with corporations, non-profit organizations, foundations and individuals from around the world to reach the lost and help meet their most basic needs.

The Dream Center staff implements programs that meet the needs, help the hurts, and solve the problems of the urban and inner-city by developing new and creative methods to communicate a positive message to those who would otherwise not hear it.

The Houston Dream Center is striving to reach young children, teenagers, and adults by providing for their physical needs. The Dream Center provides clothing, food and other needy supplies to the homeless, the forgotten, the abandoned and the down and out and to broken families from all walks of life. Our message is simple: HOPE through JESUS CHRIST.

The Houston Dream Center is joining together with non-profit organizations, corporations, foundations and individuals of many denominations from around the world with the common purpose of meeting the spiritual and socioeconomic needs of the urban and inner-city.

It is imperative that dynamic, life-changing outreaches spring up in the inner-cities. These outreaches must understand the unique needs of those who live in their cities. Through training, these once destitute members of society will become productive.

And they, in turn will offer their services to others in need. Urban and Inner-city children will finally be offered hope instead of despair, truth instead of lies, and provision instead of hunger, cold and nakedness.

The vision of the Houston Dream Center can only be realized through the continued prayer and support and financial giving of thousands across the world. Only with this support can the Houston Dream Center accomplish the great task of helping meet the personal and physical needs of Houston

Through the efforts of leaders, volunteers and supporters, the urban and inner city of Houston in the near future will stand in stark contrast to its present reality. Where there was once darkness, there will soon be light. Where there was once despair, there will soon be hope.
